CHOICE OF FRAME PROFILE

Complete the look. Select from either a Chamfered or Sculptured frame profile to compliment existing windows & doors.

Chamfered

Sculptured

Hallmark's **ELITE MODERN** Collection of doors are fitted with **WINKHAUS** lock mechanisms as standard. Depending on individual needs, you can choose from the available **lock options shown below.**

Designed **SECURE**

WINKHAUS TRU-LOCK

WINKHAUS TRULOCK multi-point locking systems are fitted to all Elite Modern Collection doors as standard. Superbly engineered, the Trulock mechanism is approved by the 'Secure by Design' Police initiative. Manufactured to meet the requirements of a modern door design, the Trulock delivers enhanced performance using low friction hook thrust plates for a smooth, precise operation.

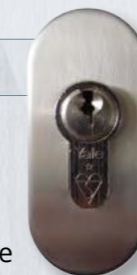

The **WINKHAUS HERITAGE** multi-point locking system has a slam-shut operation whereby the lock keep will automatically engage once the door is closed. A key is then required to gain entry from the outside.

**WINKHAUS
HERITAGE
LOCK**

The key cylinder is positioned 3/4 of the way up the door - similar to traditional period doors. From the outside the lock is key operated with a chrome or gold ring pull plate and from the inside by a thumbturn (or key if used with an internal handle to aid door opening).

KEYWIND LOCK

Used with the S-Series Bar Handles, the keywind lock has the cylinder positioned at midrail height. The lock is operated from the outside with a keywind operation and from the inside with a keywind or thumbturn operation.

ENTRY GUARD

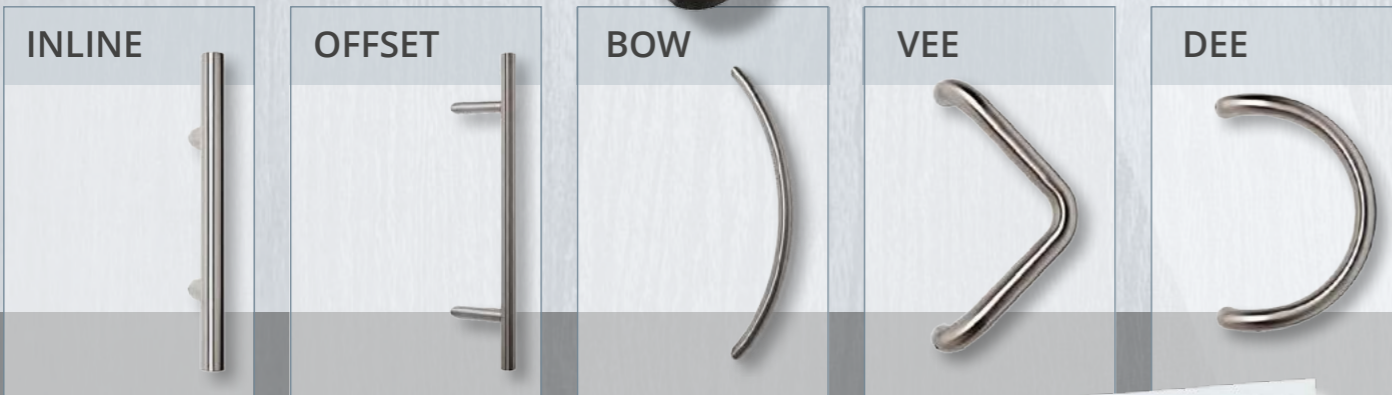

The Entry Guard is an upgrade option to the Lever/Lever Trulock. This integral guard bar offers a higher security level compared to a traditional door chain.

IMPORTANT: Thumbturn lock mechanisms are not fitted next to glazing panels for security reasons. Customers specifying thumbturns next to glazing cassettes do so at their own risk.

Contemporary **BAR** Handles

In addition to the more traditional lever handle shown opposite, the **ELITE MODERN Collection** introduces brushed **Stainless Steel Bar Handles** designed to enhance the look of the modern home and create a stunning, contemporary entrance.

Inline and offset bar handles are available in 400mm, 600mm, 800mm, 1000mm, 1200mm, 1400mm and 1600mm handle heights.

PAS 24

The **BS PAS 24 Standard** is your assurance that our composite doors have passed a rigorous testing process to certify them as intruder proof.

Stainless Steel **FURNITURE**

The brushed S-Series Stainless Steel door furniture collection includes matching letterplates, door letters and numbers, contemporary style ingot knocker and more traditional style Heritage door knob.

Ultimate **THERMAL** Efficiency

48mm Solid Timber Core Composite Door

44mm Timber Panelled Door

Our 44mm Elite Composite Door

The Elite Modern 44mm composite doors have been tested in comparison with a 48mm solid timber core composite door and a 44mm timber panelled door.

The images above show the thermal efficiency of each door type. Dark blue areas indicate lower heat loss. Red and green indicates higher heat loss.

Elite Modern Doors are:

- 19% more thermally efficient than the 48mm solid timber core composite door.
- 17% more thermally efficient than the 44mm traditional timber panelled door.

Thanks to a high performance CFC-free PV foam insulating core, the Hallmark Elite Modern Collection helps you keep the warmth in and cold and noise out.
